

TROYA

Lolium perenne

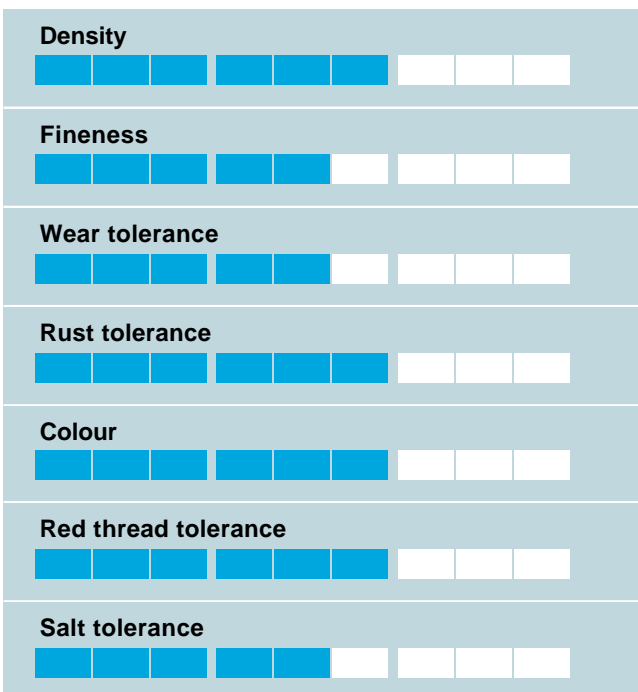

Perennial ryegrass

Good wear tolerance and early spring green up

- Good winter colour
- Universal variety
- High score for wear tolerance
- Good ground cover

Ratings

Good wear tolerance

TROYA has strong characters in the typical performance of a Perennial Ryegrass turf variety.

Good wear tolerance and good amenity quality in terms of turf density and good winter growth and aspect. It has a nice and fresh green appearance during winter. The summer colour is mid green.

Good winter growth

TROYA is a good sport type variety with a high score in Germany for its wear tolerance. Combined with the good winter growth, TROYA is the variety to select - also when there are sports activities to serve during winter.

TROYA has improved resistance against common turf diseases.
