

STRAVINSKY

Lolium perenne

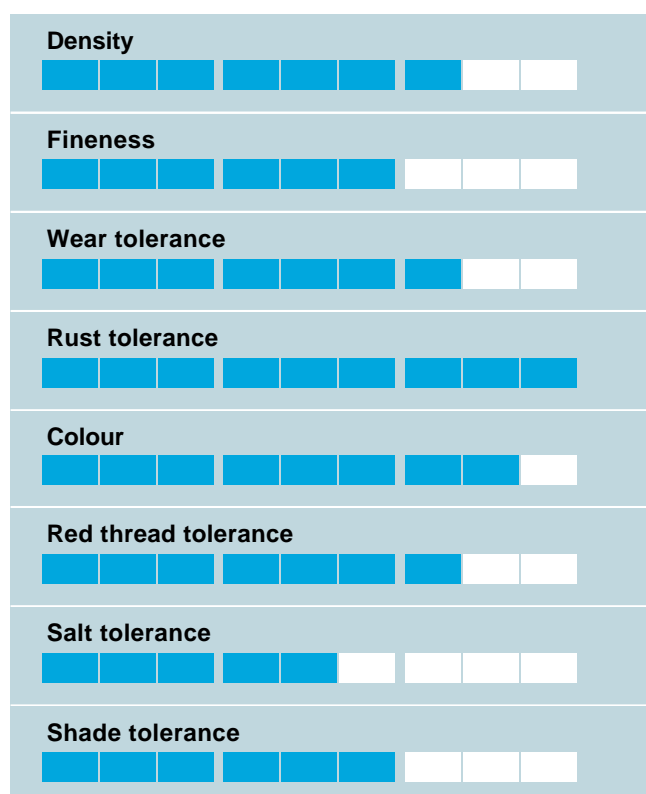

Perennial ryegrass

Dark coloured with SUPERB disease tolerance

- Wide disease resistance
- High summer wear tolerance
- Dark green attractive colour
- Winter aspect far above average

Ratings

Multi-resistant

The foliage of Stravinsky stays green and healthy throughout season due to a wide resistance to all common diseases.

Ideal playground variety

Very high summer wear tolerance and a nice winter aspect makes Stravinsky a premium choice for playgrounds without sacrificing general impression

Description

The dark colour of Stravinsky is very attractive and it is in line with a number of recent tall fescues and Kentucky bluegrass varieties. Excellent mixing partner.

Absolutely superb disease resistance!
