

GREEN STAR ARUNDINACEA

GREEN LINE a foglia robusta

Green Star Arundinacea produce una cotica erbosa dall'aspetto robusto, resistente alla siccità e all'ombra. L'inclusione di festuca arundinacea, fornisce questi attributi chiave. Green Star Arundinacea è adatta anche per la stabilizzazione del suolo di argini e pendii ripidi, pur rimanendo a bassa manutenzione.

CARATTERISTICHE

- Eccellente tolleranza all'usura
- Buon aspetto per tutto l'anno
- Minori requisiti di nutrienti, irrigazione e manutenzione
- Manto erboso denso e altamente resistente alle malattie
- Eccellente per nuovi impianti anche estensivi

Dose di semina

40 gr/mq

Altezza taglio

4/5 cm

Periodo

da marzo ad ottobre

Sacco

Kg. 10

Tall fescue A healthy sports type

- High wear tolerance
- Nice dark green color
- Disease infection what is that?
- Fine leaved

Ratings

Well prepared for a sports tackle

A nice high quality turf-type with dark green color. Foxhound delivers all you need in turf tall fescues. In NTEP trials as well as in French turf trials it showed high quality in criteria's like sport performance and wear tolerance.

Always looks nice and vigorous

Outstanding is the infection resistance of Foxhound against all kinds of diseases like brown patch and Pythium or red thread. With high scores in several trials Foxhound staid healthy and took advantage of the nice summer and winter appearance.

Performance in France

Scale: 1-9, 9 = best/darkest

Perennial ryegrass Convincing by Performance!

- Dark green colour
- Multi-resistant
- Very fast in establishment
- Combining density and wear tolerance

Ratings

Brilliant Future

ESQUIRE is one of the few varieties needing hardly any promotion. Since we started dispatching of seed for private trials we have had a very high positive feedback. Esquire's "field" performance is highly convincing!

Multi-Resistant

ESQUIRE resists well to winter damage and is tolerant to the majority of diseases of importance in the European Union and in North America; rusts, leaf spot, red thread and dollar spot.

First Out of Starting-Blocs

ESQUIRE takes off very early in spring with an impressive density. This explains also a very good wear tolerance. This is combined with good summer appearance and leaf fineness above average.

Tall fescue
Fine leaved, very dark variety

- Very dark green colour
- High rust tolerance
- Fine leaves
- Good shoot density

Ratings

One of the most dark green varieties available

The score of 8.6 on a scale from 1 to 9 ranks Debussy 1 as one of the most dark green varieties ever bred.

Fine leaves and dense turf

With finer leaves and high density Debussy 1 clearly belongs to the new generation of tall fescues gathering nice appearance and rusticity.

Good tolerance to all common diseases

The investment in Debussy 1 pays back for long time due to high persistency and good preservation of visual impression with high disease resistance and wear tolerance.
