

GREEN STAR REGENERATION

GREEN LINE per le rigenerazioni

Green Star Regeneration è stato sviluppato nel corso degli anni tenendo conto delle specifiche esigenze rigenerative, utili a rinnovare periodicamente la qualità delle superfici erbose. La miscela di Lolium perenne contrasta velocemente i danni provocati dall'uso intenso del manto.

CARATTERISTICHE

- Rapida germinazione
- Rapido insediamento del manto erboso
- Buona resistenza alle malattie
- Elevata tolleranza all'usura
- Eccellente colore invernale ed estivo
- Buona tolleranza alla siccità

Dose di semina

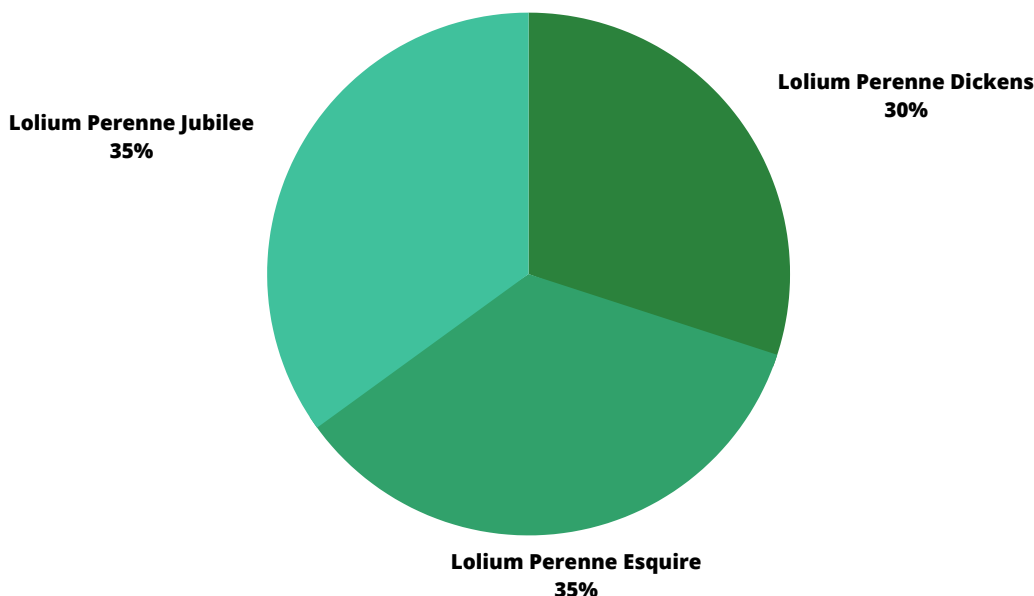

30 gr/mq

Altezza taglio

2/4 cm

Periodo

da febbraio a novembre

Perennial ryegrass
Very fine leaved with high shoot density

- Very high shoot density
- Very fine leave texture
- Very high density
- Top quality

Ratings

Top variety of the DLF portfolio

Due to the use and mixture partners the demand to the leaf size may be different.

DICKENS 1 has a very fine needle type leaf texture and in combination with the high shoot density it's the major reason to the harmonic and dense appearance of DICKENS 1.

The very good rating for amenity turf and wear tolerance of the RSM rating speak for themselves and show the superb quality of this variety. If you talk quality turf you can not avoid using DICKENS 1!

Perennial ryegrass Convincing by Performance!

- Dark green colour
- Multi-resistant
- Very fast in establishment
- Combining density and wear tolerance

Ratings

Brilliant Future

ESQUIRE is one of the few varieties needing hardly any promotion. Since we started dispatching of seed for private trials we have had a very high positive feedback. Esquire's "field" performance is highly convincing!

Multi-Resistant

ESQUIRE resists well to winter damage and is tolerant to the majority of diseases of importance in the European Union and in North America; rusts, leaf spot, red thread and dollar spot.

First Out of Starting-Blocs

ESQUIRE takes off very early in spring with an impressive density. This explains also a very good wear tolerance. This is combined with good summer appearance and leaf fineness above average.
