

Tall fescue

Fine leaved, very dark variety

- Very dark green colour
- High rust tolerance
- Fine leaves
- Good shoot density

Ratings

One of the most dark green varieties available

The score of 8.6 on a scale from 1 to 9 ranks Debussy 1 as one of the most dark green varieties ever bred.

Fine leaves and dense turf

With finer leaves and high density Debussy 1 clearly belongs to the new generation of tall fescues gathering nice appearance and rusticity.

Good tolerance to all common diseases

The investment in Debussy 1 pays back for long time due to high persistency and good preservation of visual impression with high disease resistance and wear tolerance.
