

BLUE STAR SPORT

BLUE LINE for sport

Blue Star Sport is a blend composed of Lolium perenne selected varieties and Poa Pratensis ideal for setting up sports fields for intensive use.

It establishes quickly to provide a smooth, professional quality playing surface with excellent wear tolerance.

CHARACTERISTICS

- Rapid establishment of the turf
- High resistance to fungal diseases
- Excellent wear tolerance
- Excellent winter and summer color
- Excellent playing surface

Seeding rates

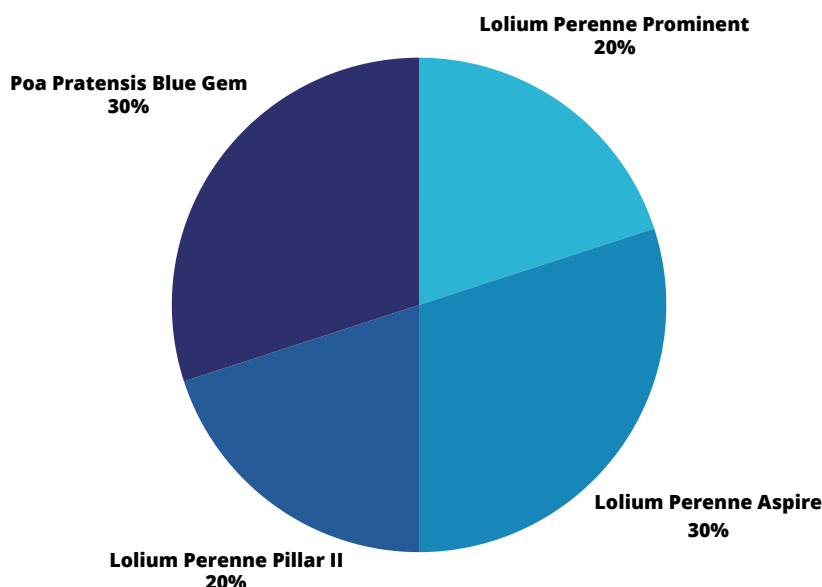

30 gr/mq

Cut height

2/4 cm

Period

From February to November

Packaging Kg. 10

Perennial ryegrass

Dark green with excellent drought recovery

- Dark green color
- Strong drought recovery
- Early spring greenup
- Excellent turf quality
- Disease resistant

Ratings

Quick facts

Aspire (IS-PR 489) was developed for broad spectrum disease resistance with emphasis on gray leaf spot and helminthosporium.

Attractive dark green colour

It's a dense dark green variety that has demonstrated superior recovery to drought (2010 PR NTEP) and early spring green-up.

Adaptation & use

Aspire was developed for permanent turf-grass blends and mixtures containing improved perennial ryegrass and other grass species compatible with perennial ryegrass.

It is an excellent choice for professional overseeding programs on greens, tees and fairways either as a straight or in mixes and blends.

Performance of ASPIRE in NTEP (USA)

Source: NTEP 2010 sowing 2011 data. Scale 1-9, 9 = best or % recovery

Variety	Mean Grey Leaf Spot	Variety	Percent Recovery After Wear	Variety	Mean Quality Overseeding
Aspire	7,1	Aspire	80,7	Aspire	7,9
Fiesta 4	5,0	Fiesta 4	77,0	Fiesta 4	7,7
Palmer V	4,6	Palmer V	76,7	Palmer V	7,6

PILLAR II perennial ryegrass is a new release that offers superior turf. **PILLAR II** has great gray leaf spot, stem rust, crown rust and pink snow mold resistance. This variety offers good density throughout the growing season along with performance in a drought.

PILLAR II has acceptable performance in salinity conditions and brown patch tolerance. **PILLAR II** has good tolerance and divot recovery.

PILLAR II blends well with other perennial ryegrass. This variety also mixes well with Kentucky bluegrass, fine fescue and tall fescue. When looking for the latest technology in perennial ryegrass consider **PILLAR II** in your program.

Spring Greenup Ratings 1-9; 9=Completely Green
Top variety (7.0), Bottom variety (4.4), LSD (0.8)

FACTS:

- Fine Leaf Texture
- Good Wear Tolerance
- Handles Close Mowing
- Early Spring Greenup
- Great Turf Density
- Excellent Gray Leaf Spot Resistance
- Great Disease Resistance
- Ideal for Overseeding Warm Season Grasses

APPLICATIONS:

- Golf Course Tees, Fairways and Roughs
- Sports Fields
- Home Lawns
- Commercial and HOA Properties
- Parks

SEEDING RATES:

- Permanent Turf:
7-8 LBS/1000 sq. ft.
- Overseeding Existing Turf:
3-4 LBS/1000 sq. ft.
- Overseeding Warm Season Turf:
10-20 LBS/1000 sq. ft.
