

GREEN STAR SPORT

GREEN LINE for sport

Green Star Sport is ideal for the construction of new sports facilities. This mixture of *Lolium perenne* and *Poa pratensis* establishes quickly giving a dense and resistant turf thanks to the strong root growth in the early stages of turf development.

CHARACTERISTICS

- Produces a fine, dense turf
- Tolerant of low cutting
- High resistance to diseases
- Excellent wear tolerance
- Bright color all year round

Seeding rate

30 gr/mq

Cut height

2/4 cm

Period

From February to November

Packaging Kg. 10

Capitale Sociale € 10.400,00 i.v. - C.F. e P.IVA: IT00662680164 - Reg. Imp. BG 00662680164 R.E.A. BG n. 162151

ZIP is the result of a native plant collected in Oklahoma crossed with Gladstone Kentucky Bluegrass. Properties observed have been quick establishment, persistent turf in low maintenance settings, early spring greenup and high seed count.

Photo taken: 10/6/2021 - 2022 Harvest Field - Available in July

FACTS

- Quick establishment
- Above average winter activity
- Early spring green up
- Very fine blade
- Moderate green color
- High seed count

APPLICATION

- Parks
- Commercial Properties
- Residential Lawns
- Golf Course Roughs
- Sod Production

SEEDING RATE

- New Establishment:
3-4 LBS/1000 sq. ft.
- Overseeding:
1-2 LBS/1000 sq. ft.

Lolium Perenne

- Very best wear tolerance
- Very high shoot density
- Fantastic persistency
- Very high rust resistance

Very Best Wear Tolerance

The very high shoot density combined with the very good recovery of Greenway makes it an obvious choice also for sports areas. Especially the summer wear tolerance is extremely high.

Very High Shoot Density

In the official trials in France Greenway came out as one of the very best varieties with regards of shoot density. This was repeated in the STRI trials in UK.

Outstanding Rust Resistance

Rust attack is one of the servere diseases in perennial ryegrass, but do not worry - Greenway can beat it!

Technical

Specifications

- Perennial ryegrass
- The Natural Way for Greening Up
- Listed/recommended in EU DE DK FR TR UK

Ratings

Scale 1-9, where 9 = best or most pronounced

Ratings

Perennial ryegrass

Convincing by Performance!

- Dark green colour
- Multi-resistant
- Very fast in establishment
- Combining density and wear tolerance

Brilliant Future

ESQUIRE is one of the few varieties needing hardly any promotion. Since we started dispatching of seed for private trials we have had a very high positive feedback. Esquire's "field" performance is highly convincing!

Multi-Resistant

ESQUIRE resists well to winter damage and is tolerant to the majority of diseases of importance in the European Union and in North America; rusts, leaf spot, red thread and dollar spot.

First Out of Starting-Blocs

ESQUIRE takes off very early in spring with an impressive density. This explains also a very good wear tolerance. This is combined with good summer appearance and leaf fineness above average.
